Appomattox County Library

by Verna Conner

Hats off to Mrs. Therese Armstrong! When she wants something done she does it herself.

I walked in the Library last week and was surprised to see that something had been done to the ceiling. For years now, the paint has been peeling off and falling at random on books, people or what have you. The Library Advisory Board suggested a new paint job or better still, a new ceiling but as usual, the School Board was short of money, so year after year the patrons and guests of the library have been subjected to this ugly sight. Well, now I admit it is far from perfect, but Mrs. Armstrong did the simplest thing - - she got up in a chair and swept the ceiling with a broom. How's that for an enterprising little lady? You can imagine what the floor looked like after that so she cleaned it too.

She may not like my telling you all this but it looks so much better I was delighted and am sure you will be too.

As of last week, no one had come forward to offer their services in putting together the book holder for paper backs and that is something the librarian can not do. In case your wonder why the custodians can't do it, suffice it to say, they are too busy.

The Middle School and the Library share a custodian and usually there are student helpers but this year with all the remodeling going on in the school, it takes most of their time there. What we really need is someone - - preferably a woman - - to come in once a week to do the heavy cleaning. Then the librarian can keep things fairly straight but when she has to come to work, dressed for cleaning, then she isn't fit to meet the public and she should not be required to do it.

I hasten to say, these sentiments are strictly mine and not necessarily the views of either librarian. I hope an ex-librarian is permitted constructive criticism.

Now that I have said my two cents worth, will tell you about more new books.

At present I am reading Taylor Caldwell's, **"Glory and the Lightning"**. In my opinion it is far from being her best or second best. The setting is in Ancient Persia and Greece and when I read how women were treated in those days, it is easy to see why Paul in the Bible spoke of women as he did. They were little better than slaves and were thought to have no souls. It is the story of one extraordinary woman, Aspasia, who finds herself, after being educated to please men, rebelling against the positon of women in her society, and trying to do something about. Pericles, who loved Aspasia and tried to help her, made many enemies because of her and put his life in danger.

Just a few more which I have not read - -

You Can Get There From Here by Shirley Mac Lain, **Lady of the Lotus** by William Barrett, **By the North Door** by Elizabeth Atkins, **Helter Skelter**, by Vincent Bugliosi, **The Total Woman** by Marabel Morgan, **Sanditon** by Jane Austin, **Breach of Faith** by Theodore White, **One Man's Medicine** by Charles Harris M.D., **Four Doctors, Four Wives** by Elizabeth Seifert.

MR. AND MRS. BOB SEARS [at left] and MRS. HENRY PACK help welcome Va. Tech Head Football Coach Jimmy Sharpe to Appomattox.

SHOWN ABOVE WITH VA. TECH ATHLETIC DEPARTMENT officials are the elected officers of the newly formed Va. Tech Booster's Club. Shown from left - Bill Jamerson, President; Dick Hamilton, Membership Committee Chairman; "Mac" McEver, Va. Tech Student Aid Association; Jim Nolen, Secretary and Treasurer; Coach Jimmy Sharpe; John Moody, Secretary - Student Aid Association; Mrs. Richard Ellis, IV, Membership Committee, Buckingham County; Bob Sears, L. T. Richardson, Membership Committee - Charlotte County.

Va. Tech Booster's Club Holds First Annual Meeting

Approximately one hundred alumni and their wives and various friends of Va. Tech attended the inaugural gathering of the brand new Va. Tech Booster's Club Tuesday night, July 1st, at the Falling River Country Club. Va. Teeh Head Football Coach, Jimmy Sharpe, was guest of honor and the featured speaker. Other guests included Mr. and Mrs. "Mac" McEver and Mr. and Mrs. John Moody of the Va. Tech Student Aid Association plus coaches and their wives from Appomattox, Buckingham and Charlotte Counties.

The group enjoyed a delightful social hour with refreshments prepared under the supervision of Mrs. Lloyd Walton. John T. Paulette and his helpers cooked and served a steak dinner with all the trimmings which in the beautiful Falling River Country Club house, was quite a special treat. G. D. Gilliam (Va. Tech Class of '56) and the Dinner Bell Meat Products Company provided the steak and Bill Jamerson, a former outstanding football player at Tech, served as Master of Ceremonies. A short business meeting during which the Club officially became organized, elected officers, etc. was followed by a discussion of the Student Aid Associations' role at Tech by Mac McEver and a very entertaining and informal talk by Coach Sharpe. Coach Sharpe has been in Virginia approximately eighteen months now and he stressed how much he and his family have enjoyed living in their newly adopted home state. Coach Sharpe reviewed the 1974 season (his first at Va. Tech) and talked optimistically about Va. Tech fielding a stronger football team this Fall that will be competitive and exciting to watch.

Judging from the enthusiastic response by all attending the first event, the Va. Tech Booster's of Appomattox, Buckingham and Charlotte have formed a solid base of support here in this part of Tech Territory!

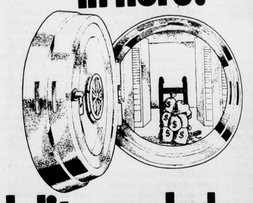
Any bank can help you save money in here.



Fidelity can help you save it out there.

With discounts at some of our best local stores

While other banks have sat back and watched prices go up; we've come up with something to help bring them back down.

It's a service called "The Going Thing." Which can get discounts for you at some of the best stores around. On things you'd normally buy anyway—but at a higher price.

And we're not talking about discounts of just a few cents either. But reductions that really make sense. From ten to twenty five percent. Reductions that can easily add up to quite a bundle.

And for once it's money you can save without a lot of drudgery without. In fact, this is one way you can save without even thinking about it. (Which, when you think about it, is a pretty good idea.)

But that's not all.

Besides plenty of discounts, "The Going Thing" offers you plenty of other things too. Like a bonus checking account. (We don't gives you wallet-style checks at no extra cost and no service charge.) Special rates on group trips. A safe deposit box at half price. Preferential rates on instalment loans.

And a $5,000 term life insurance policy (if you qualify).

How you can join in the savings.

Now considering how much you get out of "The Going Thing" you might think it would take a lot to get in on it. But it doesn't. In fact, if you're 18 or older, you can just stop by any Fidelity office and sign up in minutes.

After which all you have to do is carry a "Going Thing" card. (So that store owners will know enough to undercharge you enough.) And pay a monthly fee of from $1.50 to $4.00, depending on how many of our services you want.

Which, when you think about it, is a small amount to pay for what an easily amount to some really big savings.

And we do hope you'll think about it. Along with the fact that no other bank has "The Going Thing" going for it. Except Fidelity. So that when you think about saving, you'll see that you have two pretty clear choices.

Go with any of the banks that can keep your money in a vault. Or go with the one bank that can help you put it there. Or

The Plant Variety Protection Act, Title 5 makes it illegal for farmers or seedsmen to sell protected varieties by variety name as uncertified seed.

With approval of the owners of the varieties, seed of specially protected varieties can be sold by variety name as uncertified seed in mixtures, and can be sold as uncertified seed in most states if the seed is not represented by variety name, as is otherwise properly labeled.

There are now 66 varieties of cotton, lima beans, soybeans and wheat that are specially protected.

Any violation of this law carries for the first violation is a fine of $1,000 and not more than $2,000 for a second violation.

Blossom end rot of tomatoes is appearing again this year. Lime is important in preventing this disease. If it appears in your garden, treat with a solution containing four teaspoons of calcium chloride per gallon of water. Apply 2 to 3 times at weekly intervals.

There's a new label for Orthene on tobacco. The rate can be reduced to ⅔ lb. per acre for all tobacco insects except budworms. For these the rate should remain 1⅓ lb. per acre.

How to pinch pennies like a real pro: dial long distance direct.

Bah humbug, indeed! In these times when every penny you can pinch counts, saving a little extra is nothing to sneeze at.

You'll be amazed how much you can stash away by dialing long distance yourself. In many cases you can dial two or three out-of-state station-to-station calls for what it would cost to make just one through the operator.

If you run into trouble completing your own call, tell the operator. You'll still be eligible for the direct-dial rate.

And to save even more, dial your out-of-state long distance calls when rates are lowest. Just check the call guide in front of your local directory.

What the dickens. From now on when you call long distance, take the direct approach. It pays.

Another classic way your phone company comes through with service.
